DATE: April 20, 2023  
TO: EDX Markets Members

RE: EDX UAT Environment

---

EDX User Acceptance Test (“UAT”) environment will be available starting on April 26, 2023. This is the environment where EDX participants can test freely as the production environment is prepared for launch. In preparation for this change your teams will need to:

1. Make sure appropriate networking / firewall changes are in so you can reach the test system.
2. Request username/passwords for test environment in our support portal: <https://memx.atlassian.net/servicedesk/customer/portal/17>
3. Test environment hours will be 8am to 6pm ET Monday - Friday

Please complete step 1 ahead of step two above to ensure a smooth transition to the test environment.

The goal is to have everyone migrated to UAT by May 2, 2023.
